

Claims

What is claimed is:

1. An interactive life time journal system,
comprising:

5 an information database store for keeping user
journal data; and

an interface for querying and receiving/supplying
information from the user to store in the database and
to the user.

10

2. An interactive life time journal system
according to claim 1, further comprising a
product/service vendor tie-in system for connecting a
user with a particular vendor related to a topic of
15 interest or use to the user.

20

3. An interactive life time journal system
according to claim 1, wherein said system is adapted to
record an entire lifetime of information and data, from
conception to the grave.

4. An interactive life time journal system
according to claim 1, wherein the system comprises a
coaching, advice and instruction system.

25

5. An interactive life coaching, advice and
instruction system according to claim 4, further
comprising a product/service vendor tie-in system for
connecting a user with a particular vendor.

30

6. An interactive life coaching, advice and
instruction system according to claim 5, wherein said
system is a journal system and is adapted to record an
entire life, from conception to the grave.

35

7. The system according to claim 1, wherein said system enables users to access myriad pertinent vendors, products and services, appropriate to various life stages and at the precise time they are needed.

5

8. The system according to claim 1, wherein said system enables users to maintain relationships and connections throughout their life.

10 9. A digital archiving system adapted to archive for all of one's important documents and life artifacts beyond the reach of a single lifetime, thereby connecting generations in ways previously inconceivable.

15

10. The system according to claim 9, wherein said system is divided into specific "Life Stage Concepts" to enable a journaling process to be broken up into discrete segments.

20

11. The system according to claim 10, wherein said "Life Stage Concepts" are selected from the group consisting of birth related, school age related, post school related, family related, relationship related, 25 post family life related and preparing for death related.

12. The system according to claim 1, wherein said system is divided into specific "Life Stage Concepts" 30 to enable a journaling process to be broken up into discrete segments.

13. The system according to claim 12, wherein said "Life Stage Concepts" are selected from the group 35 consisting of birth related, school age related, post

76

school related, family related, relationship related,
post family life related and preparing for death
related.
